oil, is the lubricant that keeps things cool and running smoothly.

Although we tend to take these things for granted, it's just as vital a part of your drivetrain as any other component. It's a complex cocktail that can handle tremendous friction and terrific fluctuations in temperature.

## Transmission Fluid

recommended type of transmission fluid in your vehicle, as referred to in your owner's manual.

Typical fluid change intervals for automatic transmissions range from 40,000 to 60,000 miles depending on the severity of the usage.

See your owner's manual. In addition to fluid replacement, it is important to regularly check your transmission fluid level.
